

Exposition of the Divine Principle – red text only

In the color coded edition the main ideas are shaded red, topics of 2nd rank are shaded blue, and topics of 3rd rank are shaded yellow. This 'red text only' shows the main ideas and, so, can be evaluated in a very short time. There are 70 separate titled mp3 files so the topics that you want to engage with can be found easily.

To get the fullest meaning the text should be studied in its entirety. Yet even when reading the full text, attention to the passages in red can help clarify the thread of the argument.
